

# FINANCE FOR NON-FINANCE

[www.idm.ac](http://www.idm.ac)

## About the Programme

Finance for non-finance managers is designed to provide employees without a financial background with the necessary skills required to understand and potentially analyse financial information in order to make informed business decisions.

This course aims to bridge the gap between financial concepts and practical application of finance in various business settings.

Students will analyse various case studies and engage in real-world practical exercises to get the most from this training.

## Course Topics Basic

- Overview and Introduction to financial concepts
- Reading and interpreting financial statements
- Budgeting and financial planning
- Cost analysis and cost control
- Financial risk management
- Cash flow management
- Financial reporting
